# Safety Video

Build increased awareness of your entire work-program while educating your people on vital safety procedures. Safety awareness can be integrated with each person's work objectives!

Use training programs as a tool to develop:

- Pride in the company
- Pride in personal skills
- Better communication in problem solving
- Efficiency-awareness and purpose
- Safety-awareness and safe work habits

We're ready to produce an effective safety program for your company. Call us to discuss how we can customize your safety library to reflect your company's unique work environment.

### **Need a video training program to better reflect your staff, operations or brand?**

A semi-custom or fully customized video or DVD is the answer.

Safety Video offers a full range of professional digital production services by experienced crews with broadcast quality equipment. Our experts can develop a script and create a custom program from scratch, or you can modify one of our existing top-selling videos to create a “semi-custom” production—a very popular and cost effective option. We can also take any existing training video you produced and give it a fresh, updated look.

### **Semi-Custom Programs: A training value that really can't be beat**

Sometimes an off-the-shelf program has the right information, but the visuals don't quite fit your company or workplace. Not to worry... a semi-custom training program is the answer—and an incredible value for your training dollars. We just take one of our existing programs and modify the visuals to your company's specifications.

We offer three levels of Semi Custom Videos:

#### **Logo Addition**

We replace our logo at the beginning and the end of the program with your company logo. We can also add on-screen text message of your choice at the beginning or end of the video.

#### **Logo and Photo Montage**

This package includes your logo at the beginning and the end of the program, plus an upbeat, 30-60 second introductory montage featuring still photos of your facilities and operations set to music.

#### **Logo, Photo Montage and Updated Footage:**

First we start with one of our existing top-selling programs and add your logo and montage segment. (See partial list of videos below). Next, our crew digitally videotapes your people working at your facility. Then, we incorporate the footage where appropriate. Typically we replace up to half of the existing footage with shots from your workplace—all done seamlessly.

The BEST part is the price. Semi-custom videos cost significantly LESS than a full custom video made from scratch. Prices start as low as \$2,000.00! Please call 714.985.9556 for more information or for a sample of our work.

### List of our Top-Selling Semi-Custom Videos:

- 1) Basic Employee Safety Responsibilities
- 2) Forklift and Powered Industrial Truck Training
- 3) Hazard Communications & MSDS Sheets
- 4) Manual Material Handling: Safe Lifting and Back Injury Prevention
- 5) Fire Extinguisher Training and Fire Prevention
- 6) Heat Illness Prevention and many others...\*

\*SafetyVideo.com distributes videos made by several producers, so in some cases, additional licensing fees may apply to semi-custom videos, depending on use.

### Custom Programs: The SafetyVideo.com Advantage

For over 20 years, our team has produced top-quality safety and training videos that get the required results for your company. SafetyVideo.com offers a full range of in-house video production services to help you meet your training requirements.

The cost? A professional 10-12 minute training video can be produced from scratch from as low as \$7,500.00\* —with all of the following services included:

- 1) Assistance with concept
- 2) Script writing
- 3) Professional narration
- 4) 2 days location videography
- 5) Digital editing and effects
- 6) Titling and graphics
- 7) Use of music library

Finished programs can be delivered in any format, including CD, DVD, Windows Media, Quick Time and of course, good old VHS.

Off-the-shelf videos are great tools for many important topics, but sometimes a custom video featuring your operations and personnel is the best method to deliver a unique message or specialized information.

Call 714.985.9556 for more information or a sample of our work. We have the safety knowledge and experience to get the job done in a timely manner with minimum disruption to your workflow.

\*Pricing will vary depending on location, travel expenses and number of shooting days.

# BASIC SAFETY

## Basic Employee Safety Responsibilities / Safety Orientation

An “accident” is defined as an unforeseen, uncontrollable event. However, research has shown that most workplace “accidents” are actually “incidents” that could have been controlled or prevented—IF proper procedures or rules had been followed. The goal this safety training program is to identify and make employees aware of potentially unsafe practices and conditions. The goal and responsibility of all employees is to follow these rules and procedures to the letter.

Specifically designed to be suitable for most industries, this program is an excellent overview of safety basics that are vital to safe work practices. It doesn't matter if your business is manufacturing, service, retail, education or any other industry—many of these same basic safety principles apply. This program is an excellent choice as initial safety orientation for new employees, as well as refresher training for existing employees. Topics include:

- Reporting to Work
- Accidents vs. Incidents
- Incident Reporting
- Ergonomics
- Housekeeping
- Personal Protective Equipment
- Manual Material Handling
- Hand and Power Tools
- Lockout/Tagout
- Chemical Safety
- Emergency Procedures and more

Basic Employee Safety Responsibilities is now available at a special introductory price of \$89.95. This includes a CD-Rom of 20 test questions (English Only) and pictures from the video to use in additional training!

Don't put it off! Basic and job-specific safety training is mandatory for all employees. Order today to help ensure a safe, healthy and successful workplace.

**BS2005 (16 minutes, Eng or Spn, VHS or DVD \$89.95)**

## Industrial Employee Safety Orientation

A safety orientation is required by OSHA to inform all employees of the general hazards to which they may be exposed. Safe lifting, electrical safety, fire protection and more. 14 Minutes

**BS602 (Eng or Spn / VHS \$160.00/ DVD \$160.00)**

## Safety Orientation For Janitors / Custodians

This excellent program is designed to meet all OSHA requirements for training any janitorial/custodial employee to the general hazards to which they may be exposed. Requirements for showing up to work, fire prevention, safe lifting techniques, electrical safety and much more is covered. 12 Minutes

**BS617 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Safety Orientation In Office Environments

You don't think about accidents in the office... but they happen all the time. This tape has modules covering office equipment, electrical safety, safe lifting techniques, common office hazards, fire prevention and more.

14 Minutes

**BS639 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Orientation 2000

Our most comprehensive Safety Orientation Program. Topics include employee safety responsibility, PPE, Bloodborne Pathogens, Safe Lifting, Sanitation, personal hygiene, electrical safety, machine and equipment, ergonomics and more. 45 Minutes

**BS602 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Fire Extinguisher Training & Fire Prevention

Fire Extinguisher Training Helps Save Lives and Property!

Almost every workplace has fire extinguishers, but do employees know how and when to use them? Proper training on these devices is critical for any organization. This video covers the classes of fires A, B, C, D and even the new class K for food preparation areas. It demonstrates how to choose the proper fire extinguisher and how to use it effectively in times of emergency, and stresses the importance of inspection, good housekeeping and other important topics.

Our VHS and DVD release "Fire Extinguisher Training and Fire Prevention" covers:

- The 5 classes of fires
- Types of fire extinguishers
- How and when to use a fire extinguisher
- Fire prevention techniques
- Flammable chemicals
- Storing compressed gas cylinders

The program is intended to assist employers to comply with OSHA training requirements. Fire prevention and proper response is extremely important and should be taken seriously by everyone in the workplace.

**Fire Extinguisher Training & Fire Prevention** is now available at a special introductory price of \$89.95. This includes a CD-Rom of 20 test questions (English Only) and pictures from the video to use in additional training!

Don't put it off! Basic and job-specific safety training is mandatory for all employees. Order today to help ensure a safe, healthy and successful workplace.

**BS726 (15 Minutes, Eng or Spn, VHS or DVD \$89.95)**

## Heat Illness Prevention

Heat Can Harm Your Employees!

Preventing heat illness is a priority in numerous industries and workplaces around the world. No matter where you are working or what you are doing—driving a vehicle, harvesting vegetables or working in warehouses or construction sites—heat illness can strike before you even realize it.

Heat Illness is your body's way of letting you know it is too hot and can't cool down. Just as a machine can overheat and break down, so can your body. Many factors, both environmental and personal, increase the risk of heat illness. You need be alert to both kinds of risk factors.

Our video and DVD release "Heat Illness Prevention" explains:

- The causes of heat illness,
- Prevention techniques
- What to watch for when working in hot weather
- Steps to take if someone becomes ill from the heat

The program is intended to assist employers to comply with Cal/OSHA heat-illness prevention training requirement. It's OK to work in the heat—employees just need to take the proper precautions. This training program is a great way to increase awareness and help prevent heat illness.

**Heat Illness Prevention** is now available at a special introductory price of \$89.95.

**BS651 (12 Minutes, Eng or Spn, VHS or DVD \$89.95)**

# BASIC SAFETY

Top  
Picks

## Preventing Slips, Trips And Falls

Slips, trips, and falls are a one of the most common causes of work-related injuries worldwide. They result in pain, suffering, and lost wages for thousands of employees every day. Companies experience lost productivity and high medical costs. When it comes to slip and fall injuries, no one wins. The GOOD news is that the vast majority of slips and falls, over 90%, are preventable incidents that can be avoided.

Our DVD and VHS release "Preventing Slips, Trips and Falls", covers the following important topics:

Walking defensively  
Choosing a safe route  
Good housekeeping practices  
Speed  
Proper Footwear

This training program is intended to assist employers in promoting safety awareness and complying with OSHA training requirements. Preventing injuries caused by slips, trips and falls benefits everyone.

**BS726 (12 Minutes, Eng or Spn, VHS or DVD \$89.95)**

## Confined Space Entry

A "must-have" video if your people are required to enter confined spaces. Rescuers become victims in half of confined space accidents: this video covers such topics as oxygen deficiency, flammable and explosive gases, air monitoring and more. 19 Minutes

**BS601 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## How To Prevent Hand & Wrist Injuries

This program deals with how injuries occur & how to prevent them. Covers the anatomy of the hand & how to prevent the different parts from injury. 10 Minutes

**BS612 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## What's Wrong With This Picture?

A fresh approach to video training - clips of videos asking what's wrong with this picture are shown to your employees. Followed by a narrator & graphics explaining the right & wrong ways of doing the job. Good interaction & mildly humorous. 16 Minutes

**BS605 (Eng / VHS \$160.00 / DVD \$160.00)**

## The Good Old Days Of Safety

Black and white footage from the national archives shows safety efforts from the 20's, 30's and 40's. Present day safety is compared to "the good old days" before machine guarding and personal protective equipment were required. This program is a non-offensive, humorous, yet powerful motivator for safety education and obeying safety rules. 12 Minutes

**BS630 (Eng / VHS \$160.00 / DVD \$160.00)**

## Ladder Safety

A fall from even a short ladder can have grave consequences. This video explains the do's and don'ts of ladder safety. Subjects covered include the belt buckle rule, the 4:1 rule and the 36" landing rule when placing straight ladders against a wall. Don't let your employees get injured! With just a small amount of information no one should ever suffer an injury from falling off a ladder again. 10 Minutes

**BS631 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Video Display Terminal Safety

Topics include electromagnetic radiation, proper posture when using VDT's, how to prevent carpal tunnel syndrome, prevention of persistent neck and back pain and much more. A special section on how to reduce eye strain is also in this video. 11 Minutes

**BS614 (Eng / VHS \$160.00 / DVD \$160.00)**

## Your Fire Prevention Responsibility

The responsibility of fire prevention is everybody's. Good housekeeping, keeping fire exits unblocked and the correct way to use an extinguisher are all important. A section on electrical safety and the prevention of electrical fires is covered. Fire extinguisher training for different classes of fires as well as the use of the P.A.S.S. system for extinguishers are explained in this program. 11 Minutes

**BS613 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Accident Prevention, Reporting & Investigation for Employees**

There generally are no "accidents" in the workplace. Research indicates that most "accidents" are usually work-related "incidents". The difference? An accident cannot be stopped from occurring whereas an incident can often be prevented. Consequently, almost all so-called "accidents" in the workplace are preventable, and need not happen. This program helps shed light on why accidents or incidents occur in the workplace and offers specific examples to help identify and reduce injuries on the job. 11 minutes

- The most common work related injuries
- How to report an accident
- The basics of an accident investigation
- What employees need to know to stop unsafe behaviors

**BS620 (Eng or Spn / VHS \$89.95 / DVD \$89.95)**

### **Injury / Illness Prevention Plan**

Explains how to properly develop an effective program and how to obtain enforcement of your company's rules and regulations. 14 Minutes

**BS643 (Eng / VHS \$160.00 / DVD \$160.00)**

### **Worker's Compensation Fraud**

Finally! A program that explains workers compensation to your employees. Employers want the best care possible for employees injured on the job, but they also want employees to know the consequences of filing false reports. 12 Minutes

**BS621 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **Emergency Preparedness At Work**

Be prepared for disasters! The right action in dealing with earthquakes, floods, tornados and hurricanes (and other emergencies) is covered thoroughly in this program. Make your employees aware of what to do when faced with disaster. 13 Minutes

**BS625 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **Housekeeping In Manufacturing**

A clean workplace can do more to prevent accidents than almost anything! This video emphasizes the need for everyone's cooperation and effort in keeping their workplaces clean, orderly and safe. 10 Minutes

**BS609 (Eng / VHS \$160.00 / DVD \$160.00)**

### **The Top 10 OSHA Violations & How To Eliminate Them**

This program reveals the top 10 OSHA violations and explains how each can be corrected and eliminated from the workplace. 15 Minutes

**BS609 (Eng / VHS \$195.00 / DVD \$195.00)**

### **How To Properly Investigate An Accident**

Do your supervisors really know the correct way to conduct an accident investigation? Don't take chances! Train your supervisors in this essential procedure. These reports can be required months or years after the accident, and a correct report can make the difference in protecting your company's assets. 13 Minutes  
**BS624 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **Supervisor's Guide To Accident Prevention**

Do your supervisors know the proper way to investigate an accident? If they don't, the lack of knowledge can be costly to your company for many years. This program covers the basics of accident investigation & the facts to consider in developing an accident report. A full accident scenario is reenacted. 12 Minutes

**BS633 (Eng / VHS \$160.00 / DVD \$160.00)**

### **Safety And The Supervisor**

Who is responsible for safety at your company? Is it the safety manager? No, the supervisors are responsible for the safety of all employees. This video not only explains what a safety program is but also shows how the supervisors actions and enforcement of the rules are the key factors in whether or not a safety program succeeds or fails. 20 Minutes

**BS599 (Eng / VHS \$160.00 / DVD \$160.00)**

### **Safety Committees- The Real Story**

With the time restrictions inherent to manufacturing, effective safety committees can be difficult to achieve but if properly organized their benefits can be tremendous. Don't let your safety committees become a burden rather than a benefit. This video explains the key points to making your safety committees an asset for the company without wasting time or effort. 12 Minutes

**BS623 (Eng / VHS \$160.00 / DVD \$160.00)**

# BASIC SAFETY

## **Car & Light Truck Pre-Trip Vehicle Inspection**

It's important to remember that cars and trucks are complex pieces of machinery that require regular care and maintenance. Know what areas to inspect before beginning any trip! This video demonstrates numerous aspects of performing a pre-trip inspection, including common hazards, preventative maintenance checklists, brake and light tests and more. 11 Minutes

**BS725 (Eng / VHS \$89.95 / DVD \$89.95)**

## **Safe Operation Of Motor Vehicles**

This video is designed for anyone operating a motor vehicle. Many driving laws and safety principles are reviewed including: seat belts, backing, passing lanes, car pool lanes, parking techniques, pedestrian safety, speed limits, following distances, proper post accident procedures and much more! 17 Minutes

**BS628 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Basic Electrical Safety For Industry**

This program covers basic electrical safety for the workplace. A wide variety of topics are covered such as plugs, cords, cables, disconnect switches, grounding, double insulation, hand power tool safety and much more. 10 Minutes

**BS641 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Electrical Safety Related Work Practices Standard**

This video meets OSHA requirements for training authorized and non-authorized personnel as to what electrical hazards are and what can be done to prevent them. Topics such as grounding, lockout/tagout, double insulation and much more are covered. A valuable addition to your training library. 12 Minutes

**BS640 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

Visit us on-line at:  
[www.SafetyVideo.com](http://www.SafetyVideo.com)

## **Reporting For Work: Your Safety Responsibility**

If what your employees do at night is a detriment to the job they do in the morning then they need safety responsibility training! This program is designed to educate employees of their responsibilities for reporting to work with a proper safety attitude. Many safety basics are covered making this the perfect program to use as a refresher for current employees as well as new hires. 10 Minutes

**BS618 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Ergonomics**

Ergonomics is the science of making the workstation fit the employee rather than forcing the employee to fit the workstation. Many types of problems such as backaches, headaches and Carpal Tunnel Syndrome can be completely remedied or avoided by having an ergonomically correct workplace! 8 Minutes

**BS637 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Ergonomics For the 21st Century**

This program is designed for computer workstations and industrial applications relating to ergonomics. This program will help your company comply with current ergonomic requirements. 13 Minutes

**BS706 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Ergonomics In Industrial Environments**

Comprehensive coverage of ergonomic related topics as they relate to industrial environments. 33 Minutes

**BS707 (Eng / VHS \$195.00 / DVD \$195.00)**

## **Safety Orientation - Automotive Industry**

This video meets all the training requirements set by OSHA for explaining the general hazards found in the workplace. Topics covered include proper clothing, eye protection, electrical safety, hand/power tool safety, safe lifting techniques and much more. An excellent refresher for seasoned employees as well. 14 Minutes

**BS627 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Retail Employee Safety**

Retail employees have many different job requirements, this program introduces the employee to many site specific safety hazards of a retail environment. Jobs such as cleaning spills, using chemicals, safe lifting techniques, using box cutters properly, ladder safety and much more is covered in this video. 16 Minutes

**BS615 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Introduction To OSHA

OSHA was created over 37 years ago to help protect the safety of workers from the hazards of job related injuries and illnesses. Before OSHA existed work related injuries, illness and fatalities were at an all time high. This program discusses not only the founding of OSHA but also how it affects all workers within the US. 22 Minutes

**BS646 (Eng , VHS \$195.00 / DVD \$195.00)**

## The 25 Most Commonly Cited OSHA Violations

Reveals the 25 most commonly cited OSHA violations, and explains how to avoid citation. Excellent guidance for managers and supervisors towards better OSHA compliance: good training for employees too. Get the facts about OSHA inspections before they call on you. 9 Minutes

**BS632 (Eng / VHS \$160.00 / DVD \$160.00)**

## OSHA's Eleven

This program features interviews with eleven OSHA compliant safety experts. This program offers tips to improve safety in all work environments. 36 Minutes

**BS648 (Eng , VHS \$195.00 / DVD \$195.00)**

**SEE  
pg.26**

## OSHA 35 And Still Alive

This new documentary provides a unique understanding of OSHA some of their values and of course has the money OSHA spent on Health and Safety been worthwhile? 35 Minutes

**BS647 (Eng , VHS \$195.00 / DVD \$195.00)**

## Hexavalent Chromium

This program discusses some of the dangers of Hexavalent Chromium (HC) exposure. HC is a known carcinogen that if exposed to can cause illness or death. This program discusses exposure limits, air monitoring regulations, as well as proper PPE.

12 Minutes

**CH510 (Eng, VHS \$195.00 / DVD \$195.00)**

## H2S Hydrogen Sulfide

This newly developed program meets the academic training requirements for those persons who work in an area with potential hydrogen sulfide exposures. Program explains new TLV and other important safety rules relating to hydrogen sulfide. 12 Minutes

**CH509 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Hot Work Permits

Excellent training program and reinforcement for the need of Hot Work Permits. Details what is required, purpose of HWP and how to develop and use Hot Work Permits. 9 Minutes

**CH530 (Eng, VHS \$195.00 / DVD \$195.00)**

## NFPA 70E Electrical Safety Arc Flash Safety For Employees

Under new OSHA requirements, the NFPA 70E places additional requirements on all organizations, to properly identify hazards and provide training for anyone who may work on, near or around electrical equipment. Some of the specific requirements discussed in this training video include INTRODUCTION TO UNDERSTANDING AND REDUCING ARC FLASH HAZARDS, ARC FLASH PROTECTION, ARC FLASH PERSONAL PROTECTIVE EQUIPMENT REQUIREMENTS, REQUIRED SIGNS AND LABELING, TRAINING, DOCUMENTATION, WORK PERMITS AND MORE. Basically this program will provide information to train employees in Arc Flash Safety, meet OSHA requirements of the new NFPA 70E and help reduce the hazards associated with electrical arc flash and blasts. 18 Minutes

**BS650 (Eng, VHS \$195.00 / DVD \$195.00)**

**Sexual Harassment In  
The Workplace**

This video takes an in depth look at what is sexual harassment, explains how to deal with it and offers useful tips in avoiding and eliminating sexual harassment. Direct employee / employee relationships are explored as well as the supervisors role in governing these relationships. Proper supervisor / employee relationships are also explained. 12 Minutes

**BS610 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

**Sexual Harassment For Employees**

This new training program provides information for training employees in Sexual Harassment as required in most states or is a recommended policy for educating employees in this subject to help reduce employer liability. Lack of documented training in sexual harassment lawsuits can be a deciding factor in many of these cases. Consult your legal advisor for additional information. 15 Minutes

**BS668 (Eng / VHS \$195.00 / DVD \$195.00)**

**Sexual Harassment For Managers**

This new video explains various management responsibilities training and investigative efforts required to maintain an effective sexual harassment prevention program. Excellent program for managers, supervisors and those persons who are responsible for supervising employees. 15 Minutes

**BS669 (Eng / VHS \$195.00 / DVD \$195.00)**

**Homicide In The Workplace**

More people are being killed by violence at work than by actual on the job injuries. Train your employees for the signs of violence before they become statistics.

17 Minutes

**BS645 (Eng / VHS \$160.00 / DVD \$160.00)**

**Need a title but don't see it here?  
Call us! We distribute over 1000  
safety & training titles.

# PERSONAL PROTECTIVE EQUIPMENT

## Personal Protective Equipment: The Right Choice

The proper selection and use of Personal Protective Equipment (PPE) is vital to a safe and healthy workplace. Without personal protective equipment, many of the jobs we perform simply could not be done...safely or otherwise. Your employer provides you personal protective equipment to protect you on the job. However, all the PPE in the world won't do any good if you don't make the commitment to wear it when it's required. It's really your choice to protect yourself against workplace hazards.

Topics include:

- Hearing Protection
- Eye Protection
- Dust Masks vs. Respirators
- Gloves
- Hard Hats and Bump Caps
- Boots and Shoes

Using Personal Protective Equipment in conjunction with machine guards, engineering controls, sound manufacturing practices and common sense greatly reduces the chance of getting injured on the job. Using your PPE is the right choice, every time.

**PE204 (12 Minutes, Eng or Spn, VHS or DVD, \$89.95)**

## Eye Protection Essentials

This program features the hows and whys behind eye protection and your employee's responsibility to use it. There are sections on proper eye protection when machining, welding or using chemicals and many other different industrial jobs. Also has an important first aid section covering the proper treatments for different types of eye injuries. 11 Minutes

**PE212 (Eng or Spn / VHS or DVD \$89.95)**

## Hearing Conservation Essentials

This program is designed to heighten employee awareness of hearing conservation in the workplace and other noisy situations. Explains the anatomy of the ear, how noise causes hearing loss and the different types of hearing protection that are available. 11 Minutes

**PE216 (Eng or Spn / VHS or DVD \$89.95)**

## Ultimate Hearing Conservation Program

This is the Ultimate Hearing Conservation Program that can be used for initial training annual updates and for specific PPE training. Covers all aspects of hearing conservation and include a cameo appearance of Lou Ferrigno noted famous body builder author and trainer who has been severely hearing impaired since birth. He provides his personal message about hearing conservation. This Ultimate Hearing Conservation Program supersedes all others for its completeness of information for Hearing Conservation. 20 Minutes

**PE217 (Eng / VHS \$195.00 / DVD \$195.00)**

# PERSONAL PROTECTIVE EQUIPMENT

## **Respirators And How To Use Them**

This program contains information about the types of respiratory equipment available, as well as the care & maintenance of this equipment. Also covered are the different types of equipment required for use in various industrial environments. 12 Minutes

**PE208 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Fit Testing Respirators**

This program teaches all the proper procedures for testing, maintaining and using respiratory equipment. A good video to add to your safety library if your employees are using respiratory equipment already and if fit testing their respirators is a job requirement. 12 Minutes

**PE210 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Respiratory Protection Program**

This video explains the general requirements for an effective respiratory protection program. Covers written plan use care cleaning and storing of respirators and provides information on self-contained breathing apparatus respiratory protection. 13 Minutes

**PE219 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Respirators: Fit Testing / NIOSH Standards**

Requirements under NIOSH Standards for quantitative and qualitative Fit Testing procedures. 15 Minutes

**PE209 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

**SEE  
pg.27**

## **Respirator Selection & Use**

Up to date information on proper procedure for selecting respirators for a particular hazard. Explains capabilities, limitations, emergency situations, inspection, seal checks, exposure symptoms and more. 23 Minutes

**PE207 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Respirators: The New Rules / Overview**

New standards for Fit Testing, maintenance inspection, filtering face pieces, dust masks and more. Information you need to help comply with current standards.

21 Minutes

**PE206 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Carbon Monoxide Poisoning**

Defines carbon monoxide poisoning and how to reduce the effects of this health hazard. Almost every industry is exposed but very little attention is given to its effects. Excellent awareness program. 10 Minutes

**PE218 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

---

**Basic Safety Package**  
The perfect starter kit for your  
company's safety and training library.  
All programs on 1 DVD or VHS tape.

---

### **The Basic Safety Package Includes:**

- 1. Basic Employee Safety Responsibilities**
- 2. Manual Material Handling: Back Injury Prevention**
- 3. Fire Extinguisher Training and Fire Prevention**
- 4. Hazard Communications for the Workplace**
- 5. Forklift and Powered Industrial Truck Training**

You receive five programs for the price of four! This set includes all written materials. Call for more information or you can watch the previews online at [www.SafetyVideo.com](http://www.SafetyVideo.com).

**BS500 (Eng or Spn / VHS or DVD \$359.00)**

# BACK INJURY PREVENTION

## Manual Material Handling: Basic Safe Lifting Learn practical tips & techniques vital to safe work practices!

### EXCLUSIVE TO SAFETY VIDEO!

This program was researched and developed by Safety Video and a risk control consultant with over 30 years of experience working directly with numerous companies, large and small. We have distilled this helpful information so employees can not only learn to lift safely, but learn proper techniques about handling, moving and putting down materials safely.

**Top  
Picks**

### Manual Material Handling: Basic Safe Lifting

This program was researched and developed by Safety Video and a risk control consultant with over 30 years of experience working directly with numerous companies—large and small. We have distilled this helpful information so employees can not only learn to lift safely, but learn other important manual material handling techniques as well.

Safe lifting is critical, but it is only one step in the material handling process. The material must then be moved safely and then put down properly. Mechanical devices or other assistance may be required.

Size and weight of the load, balance, travel path, foot positions, height of the object, arm positions and material handling equipment are all important factors that must be considered and put into practice.

Topics Include:

- Basic anatomy and physics of the spine and back
- Safe lifting techniques
- Ergonomics
- Posture and computers
- Muscle fatigue and lifting
- Other specific material handling tips

Manual Material Handling: Back Injury Prevention is now available at a special introductory price of \$89.95. This includes a CD-Rom of 20 test questions (English Only) and pictures from the video to use in additional training!

Start your training now. Back injuries are some of the most common, painful and expensive types of injuries. Order today to help ensure a safe, healthy and successful workplace.

**BP450 (14 Minutes, Eng or Spn, VHS or DVD, \$89.95)**

### System Lifting 2000

This is one of the most comprehensive back injury prevention videos on the market. This program explains “system lifting” which emphasizes awareness of the entire back anatomy in concurrence with lifting techniques. 34 Minutes  
**BP2000 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## MEDICAL & FIRST AID

### **Carpal Tunnel Syndrome**

Carpal Tunnel Syndrome is a disease of the wrist caused by repetitive motion. This video explains what CTS is, how to avoid getting CTS and what you can do to help relieve the affects of CTS. 12 Minutes

**MF310 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **Universal Precautions - Infection Control**

Anyone Involved with security, custodial or administration should know about infection control procedures, especially now with more virulent strains of bacteria becoming commonplace in many health care facilities. This video can be used for nursing staffs, lab technicians and anyone else who would normally receive universal precautions training. 8 Minutes

**MF316 (Eng or Spn / VHS \$160.00/ DVD \$160.00)**

### **First Aid Training**

A comprehensive training video about many different aspects of first aid. Topics include CPR, cuts and lacerations, burns, drowning, frostbite and much more! In depth training for your first aid certified employees or as a first aid course for all your employees. Don't let your workers be hurt by a lack of training! 52 Minutes

**MF363 (Eng or Spn / VHS \$245.00 / DVD \$280)**

### **Preventing Hypothermia**

Hypothermia can be a very serious health risk. Covers all aspects of treatment and prevention. 14 Minutes

**MF315 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **New Bloodborne Pathogens - The Complete Program**

As the name implies, this is an extremely comprehensive program relating to Bloodborne Pathogens. It covers all aspects of an Exposure Control Plan—from information relating to BBP diseases, including Hepatitis B, C and HIV, plus modes of transmission, PPE and work practices, emergency procedures and recordkeeping requirements. 25 Minutes

**MF372 (Eng / VHS \$195.00 / DVD \$195.00)**

### **Blood Borne Pathogens Training For The Workplace**

Avoid life threatening accidents, keep your employees well informed about bloodborne pathogens! This program is for all employees, and a must for your training library.

8 Minutes

**MF377 (Eng or Spn / \$195.00 / DVD \$195.00)**

### **BBP Training For Non-Healthcare Workers**

Helping an accident victim or providing CPR could result in the transmission of bloodborne pathogens unless you know the proper techniques and safety procedures. Topics include: definitions, personal protective equipment, waste disposal, and sanitizing. Don't wait! Add this title to your safety video library today. 12 Minutes

**MF371 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **Controlling Exposure To BBP- Manufacturing**

AIDS or Hepatitis B are both life threatening. This program is designed to meet the requirements for all employees designated as first aid or CPR providers, or those occupationally exposed (such as janitorial staffs). A life saving video! 16 Minutes

**MF374 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **Controlling Exposure To BBP- Hospitality Industry**

This program meets the training requirements for employees working in the hospitality industry. Designed for workers identified as First Aid / CPR providers or those whose jobs may expose them to blood or bodily fluids on linens or clothing. 17 Minutes

**MF357 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

### **Blood Borne Pathogens Training For Paramedics**

If your employees work as EMT's, paramedics, fire or police officers, first aid or CPR providers and are potentially exposed to blood or other bodily fluids that may contain HIV or HBV - this program is a must for your training library. 19 Minutes

**MF313 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **CPR 2000**

A state of the art CPR training program. Program includes infant, child & adult CPR techniques. Also includes the new electronic defibrillation equipment that will soon be required in CPR providing organizations. 33 Minutes

**MF314 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

**Top Picks**

## Basic Hand and Power Tool Safety

Statistics tell us that hand and power tools are involved in thousands of accidents and injuries every year. Many of them are serious, some even fatal. The purpose of this training program is to provide a basic overview of the common hand and power tools that are found in workplaces, workshops and garages around the world. Employee awareness of potential hazards combined with following proper safety procedures can reduce accidents and injuries dramatically.

Our DVD and VHS release "Basic Hand and Power Tool Safety" covers the following important topics:

- Proper dress code
- Personal protective equipment
- Common hand tools
- Electrical safety review
- Power saws
- Drill presses, and more

This training program is intended to assist employers in promoting safe work practices and complying with OSHA training requirements. Preventing hand and power tool related accidents and injuries is a goal that everyone wants to achieve.

**MT752 (12 Minutes, Eng or Spn, VHS or DVD \$89.95)**

## Lockout / Tagout and the Control of Hazardous Energy Sources

Lockout/Tagout is a basic principle of workplace safety that is too often ignored, and these procedures are mandated by OSHA! This program stresses the need for consistent procedures and explains the general principles of lockout/tagout. 10 Minutes

**MT721 (Eng or Spn / VHS \$89.95 / DVD \$89.95)**

## Lockout / Tagout For Affected / Authorized Personnel

This new training program is designed for machine operators, personnel who work near machines but do not operate machines, and maintenance personnel. Updated to meet most recent training and regulatory requirements. Explains hazardous energy sources, lock requirements, tag requirements and auditing machinery. Explains requirements for a mandatory written program and training documentation. Video is accompanied with an employee booklet on diskette that can be printed and used as training materials.

15 Minutes

**MT742 (Eng or Spn / \$195.00 / DVD \$195.00)**

## Maintenance Person Safety

To be sure your maintenance people are properly trained, this program provides information on proper lockout/tagout techniques, electrical safety, machine guarding, safe lifting & much more! An excellent safety awareness tool. 14 Minutes

**MT727 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## Portable Grinders & Abrasive Wheels

Grinders and abrasive wheels are some of the most common tools in industry today yet they account for a high percentage of injuries. Did you know that if improperly used a grinder can explode with the force of a hand grenade! This video demonstrates the proper procedures for safe use, care and maintenance of grinders and abrasive wheels. 12 Minutes

**MT723 (Eng or Spn / \$195.00 / DVD \$195.00)**

## Machine Guarding & Conveyor Safety

This program addresses the need for working safely & responsibly around machine guarding, machinery with moving parts or conveyor belts. This video is an important addition to your safety & training library. 12 Minutes

**MT733 (Eng or Spn / \$195.00 / DVD \$195.00)**

# MACHINERY & TOOLS

## **Cranes, Chains, Slings & Hoists**

Training is essential for anyone operating cranes, chains, hoists or slings. This program meets OSHA requirements and will help your employees to maintain a safe & efficient workplace. 12 Minutes

**MT737 (Eng or Spn / \$195.00 / DVD \$195.00)**

## **Safe Operation Of Overhead Cranes And Hoists**

This new training program is designed to educate and reinforce crane and hoist operator responsibilities. Program includes a range of safety tips including lifting lowering loads signaling crane and hoist inspections rigging requirements sling angles and generally how to avoid accidents with cranes and hoists. 9 Minutes

**MT721 (Eng or Spn / \$195.00 / DVD \$195.00)**

## **Oxygen Acetylene Welding Safety**

This is an excellent video that discusses welding with an Oxygen Acetylene torch. This video teaches you the proper way to turn on the torch, light it and then turn it off after use. This videos shows a step by step procedure for working with this type of torch. The video also discusses the proper PPE to use when working with one of these torches. 14 Minutes

**MT722 (Eng / VHS \$195.00 / DVD \$195.00)**

## **Gas Welding Safety**

This program explains cylinder connections, valves, "cracking" and basic safety procedures when using fuel gas welding and cutting. 14 Minutes

**CH523 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Arc Welding Safety**

An excellent review of Arc Welding safety, safety hazards and health hazards associated with this type of welding operations. 11 Minutes

**CH522 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Cutting Torch Safety**

Program emphasizes valves, pressure gauges, hoses, cylinders and cutting operation safety. For anyone using or handling acetylene torches. 10 Minutes

**CH524 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Machine Guarding Responsibility**

Discusses control of hazardous energy sources (Lockout/Tagout), machine guarding requirements and personal responsibility when working with machines. 9 Minutes

**CH526 (Eng or Spn / \$195.00 / DVD \$195.00)**

## **Safety In The Maintenance Department: Part 1**

This is the first part of an excellent training program for maintenance persons, custodians, mechanics and others that work in maintenance facilities. This videos covers Personal Protective equipment, hand tools, electrical tools, drilling & cutting, & more. 10 Minutes

**MT750 (Eng / VHS \$195.00 / DVD \$195.00)**

## **Safety In The Maintenance Department: Part 2**

This program covers training in lockout/tagout, confined spaces, fire prevention, ladder safety, compressors, chemicals & hazardous materials MSDS & chemical labeling. An excellent overview of each category. 16 Minutes

**MT751 (Eng / VHS \$195.00 / DVD \$195.00)**

## **The New Lockout / Tagout**

This updated version of Lockout Tagout is designed as a refresher for both Affected and Authorized personnel. The new ANSI Standard released in 2003 on Lockout Tagout is discussed by Dr. Perry Huckabay Risk Management Consultant and formerly the Director of the Texas Worker Compensation Commission. Perry outlines the changes and additions to the Lockout Tagout standards which may affect companies who are required to comply with this safety standard. 16 Minutes

**MT743 (Eng VHS \$195.00 / DVD \$195.00)**

## **Lockout / Tagout For Janitors & Custodians**

Lockout/Tagout is a basic principle of workplace safety that is often ignored. Lockout/Tagout procedures and training are mandated by OSHA. Employees in the janitorial or custodial industries have potential exposure to conditions that can be controlled easily and effectively through lockout/tagout. This program stresses the need for consistent procedures and explains the general principles of lockout/tagout. 10 Minutes

**MT741 (Eng or Spn / \$195.00 / DVD \$195.00)**

# CHEMICALS & HAZARDOUS MATERIALS

## Hazard Communications / MSDS For The Workplace

Chemicals are a big part of everyday life, both at home and in the workplace. We all use cleaners, detergents, solvents, pesticides and many other chemicals on a daily basis. We put gasoline and oil in our vehicles, and sunscreen on our skin. Chemicals are present in cosmetics, shampoo, and even the some of the food we eat.

It has been estimated that more than 32 million workers utilize up to 650,000 hazardous chemical products in more than 3 million American workplaces, so it is of critical importance that employees know how to properly use, handle, store, clean up and dispose of chemicals. This training video is for all employees who work with or are exposed to chemicals or hazardous materials in an industrial environment. Topics include:

- Hazard awareness
- Basic definitions
- Chemical labels
- MSDS sheets
- MSDS analysis
- Bulk users vs. table top users
- Employee training

Hazard Communications for the Workplace is now available at a special introductory price of \$89.95. This includes a CD-Rom of 20 test questions (English Only) and pictures from the video to use in additional training!

Start your training now. Be sure employees know about chemical hazards and how to protect themselves—which will help to reduce the incidence of chemical source illness and injuries. Order today to help ensure a safe, healthy and successful workplace.

**CH520 (15 Minutes, Eng or Spn, VHS or DVD \$89.95)**

## Hazard Communication 2012 (GHS Alignment)

Covers the 2012 version of OSHA's Hazard Communication Standard, including the alignment of HazCom with GHS (Globally Harmonized System). Can be used as a stand-alone for all Hazard Communication training or in combination with our "Hazard Communications for the Workplace" program until OSHA phase-out dates in 2015 and 2016. The new Safety Data Sheets (SDS) are covered in detail.

Based on: 29 CFR 1910.1200 (2012 version)  
Expertly designed for maximum retention, this program features a downloadable test.

**CH520A (30 Minutes, Eng VHS or DVD \$129.00)**

**Globally  
Harmonized System  
Hazard  
Communication**

# CHEMICALS & HAZARDOUS MATERIALS

## How to Comply with the New GHS HAZCOM Program

The Globally Harmonized System (GHS) is an International approach to hazard communication, providing agreed criteria for classification of chemical hazards, and a standardized approach to label elements and safety data sheets. There is a lot of information about the new Hazard Communications program that's changing the way organizations comply with the new rules. This program is an explanation of how to comply, without changing your entire HAZCOM program. The topics in this program include: changes to HAZCOM, hazard classifications, labels, pictograms, and the new safety data sheets (SDS). 15 Minutes

**1066A (Eng or Spn / VHS \$195.00 / DVD \$195.00)** Includes CD-ROM with test and trainer support materials.

## Integrating GHS with HAZCOM

This update to the Hazard Communication Standard will provide a common and coherent approach to classifying chemicals and communicating hazard information on labels and safety data sheets. Once implemented, the revised standard will improve the quality and consistency of hazard information in the workplace, making it safer for workers. This program covers topics such as Hazard classifications, labels and labeling, SDS, training and information, shipping and receiving, PPE, transitions between the old Hazcom and new GHS standards. 18 Minutes

**1068A (Eng or Spn / VHS \$195.00 / DVD \$195.00)** Includes CD-ROM with test and trainer support materials.

## Hazardous Material Spill Cleanup

Different types of cleanup procedures as well as emergency actions to be taken when a leak / chemical spill occurs are covered in this training program. 15 Minutes  
**CH525 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Hazardous Materials & Flammables Safety

Employees working with hazardous and flammable materials and who deal with Fire triangles, UEL, LEL, Flashpoints etc. - will gain much from this program. Also covered is the use & storage of such materials in a safe & productive manner. 16 Minutes  
**CH527 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## NFPA Hazardous Material Labeling/ID

Defines and stresses the importance of understanding these signs & placards. This program has been used by fire departments for training. 7 Minutes  
**CH505 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## The Asbestos Threat

Asbestos can be found at work, home, schools and many other structures, it is especially important for all of your employees to be trained about this hazardous material. This short program shows that although asbestos can be found in many older structures, you can still avoid exposure. 7 Minutes  
**CH519 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Chemical Safety

Educates employees who use, handle, store and dispose of chemicals in the workplace. Meets the general requirements for employees who use small amounts of chemicals on a daily basis. 15 Minutes  
**CH506 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## Flammables - Combustibles

How to store, use, handle, proper labeling and disposal of flammable and/or combustible materials. 8 Minutes  
**CH513 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

# CHEMICALS & HAZARDOUS MATERIALS

## **DOT Shipping of Hazardous Materials**

Designed to meet training requirements involving the shipment of hazardous materials. An excellent basic course for shippers of hazardous materials. 14 Minutes  
**CH512 (Eng / VHS \$160.00 / DVD \$160.00)**

## **Environmental Regulations**

Overview of basic risk management program for companies using hazardous chemicals. Review regulations relating to hazardous chemicals. 10 Minutes  
**CH510 (Eng / VHS \$160.00 / DVD \$160.00)**

## **Flammable Liquids Safety**

Defines LEL, UEL, Flash Points & other potential explosions by reducing static electricity when transferring flammables. 9 Minutes  
**CH503 (Eng / VHS \$160.00 / DVD \$160.00)**

## **Bonding & Grounding of Flammable Liquid**

Illustrates static electricity, bonding and grounding of flammable liquids. 9 Minutes  
**CH504 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Introduction To Industrial Toxicology**

Terms, definitions and entrance ways of toxins into the human body are all covered in this program. Explains basic emergency response procedures and more!  
15 Minutes  
**CH548 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **How Did Those Chemicals Get In The Workplace?**

Excellent training course for supervisors and employees that use chemicals. Explains the proper procedure for introducing new chemicals into the workplace.  
15 Minutes  
**CH552 (Eng / VHS \$195.00 / DVD \$195.00)**

## **Hazardous Waste & Chemicals**

What is hazardous waste? This question and more get answered in this program. Other issues explored are exposure avoidance, contamination avoidance, MSDS's and PPE. Safe work practices when handling, storing, using or disposing of hazardous waste.  
11 Minutes  
**CH551 (Eng / VHS \$195.00 / DVD \$195.00)**

## **Life Saving Through Air Monitoring**

A survey of common toxic atmosphere hazards includes oxygen deficiency, hydrogen sulfide & carbon monoxide/dioxide. Air monitoring techniques, sampling, calibration and how to deal with combustible/toxic gasses is also covered. 13 Minutes  
**CH549 (Eng / VHS \$160.00 / DVD \$160.00)**

## **Safe Use Of Compressed Gas Cylinders**

Explains basic safety procedures, compressed gas cylinder hazards and how to properly use them. 8 Minutes  
**CH507 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Safe Handling Of Compressed Gas Cylinders**

Explains how to handle cylinders and proper storage.  
9 Minutes  
**CH521 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Office Hazard Communications**

Many of the same chemicals you use every day could be hazardous to your health if used incorrectly. The office environment is not exempt from these same chemicals: cleaning fluids, toner for copiers and more. It is important for all employees exposed to chemicals to be trained in Hazard Communications. This video helps meet OSHA requirements for training, and explains MSDS (Material Safety Data Sheets) and other chemicals more closely associated to office environments.  
9 Minutes  
**CH517 (Eng / VHS \$160.00 / DVD \$160.00)**

## **Hazard Communications (Hospitality)**

Updated to meet the OSHA requirements this video belongs in every company's safety library. This program is for training all employees who work with chemicals or hazardous materials in a hospitality work environment. With a focus on Material Safety Data Sheets (MSDS), chemical labeling and the basic safety necessary for handling chemicals on the job. 13 Minutes  
**HO619 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

**Need a title but don't see it here?

# FORKLIFTS / MATERIAL HANDLING

## Forklift and Powered Industrial Truck Training

Handling materials and products safely and efficiently is a major factor in the success of numerous industries throughout the world. That is why it is critical that Forklift and other Powered Industrial Truck operators are properly trained in the engineering principles and safe operating techniques of the various types of equipment in use today.

OSHA has also made it mandatory that all Powered Industrial Truck operators be trained and certified on the specific equipment that they operate, including forklifts or any of the seven classes of Powered Industrial trucks in use at a particular facility.

Safety Video has produced the most comprehensive overview of Forklift and P.I.T. Training on the market today. Clocking in at just over 20 minutes, Forklift & Powered Industrial Truck Training takes the mystery out of forklift training and covers a wide range of important topics including:

- Operator Responsibilities
- Classes of equipment
- Equipment characteristics
- Engineering principles
- Similarities and differences to Automobiles
- Capacities Attachments
- Pedestrians Inspection
- Re-fueling, and others

This video is the most up to date and comprehensive on market, and is now available a special introductory price of \$89.95. This includes a CD-Rom of 20 test questions (English Only) and pictures from the video to use in additional training!

Don't put it off! If you use Forklifts or Powered Industrial Trucks this training is mandatory. Order today to begin your training.

**FM2002 (21 Minutes, Eng or Spn, VHS or DVD \$89.95)**

## Printable Forklift License & Certificate on CD Rom

When training is finished and your employees need a Certificate of Completion and a Forklift and Powered Industrial Truck Operator License, these are easy to print right from your own computer. Available on CD in an Adobe Acrobat (.pdf) format or high resolution .jpeg's for easy use.

**FM100 (Eng / CDRom \$14.99)**

## Aerial Lift Safety

Demonstrates the proper donning of body harnesses, regular equipment inspection and other safety issues related to the use of aerial lifts. 10 Minutes

**FM234 (Eng / VHS \$160.00 / DVD \$160.00)**

## Scissor Lift

This videos was designed to show the proper way to work with and operate a scissor lift. It covers several factors such as safe use and operation, maneuvering hazards, working near electricity, and body harnesses. 10 Minutes

**FM102 (Eng, VHS \$195.00 / DVD \$195.00)**

## Walkie Stacker Safety

Operator safety and maintenance procedures in the use of walk behind electric pallet jacks. 16 Minutes

**FM225 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

# FORKLIFTS / MATERIAL HANDLING

## **Forklift 2000** **An excellent "train the trainer"** **package . Now on 3 videos or DVDs!**

### **Forklift 2000: The New Rules**

This program meets the 1999 OSHA academic standards for training forklift operators in the new rules. Including: engineering principles, load centers, forklift operating rules and operator maintenance, turnovers/tip overs and more! 60 Minutes

**FM201 (Eng or Spn / VHS \$245.00 / DVD \$280.00)**

### **Forklift 2000: Site Safety Specifics**

The new OSHA rules require that forklift operators be trained in "site specific" hazards to which they may be exposed. This program covers: Carbon Monoxide poisoning, Electric pallet jacks, Battery charging, Propane safety, pedestrians & forklifts, Walkie stackers. 60 Minutes

**FM202 (Eng or Spn / VHS \$195.00 / DVD \$230.00)**

### **Forklift 2000: Updated Training for Experienced Forklift Drivers**

This program is designed for companies who have experienced, trained and certified forklift operators. This program updates the new engineering principles and technical information of the new OSHA standards.

19 Minutes

**FM203 (Eng or Spn / VHS \$125.00 / DVD \$160.00)**

### **Forklift 2000 Training CD Rom**

On this CD you'll find: a student workbook, an instructors workbook, training tests (w/answers). Plus, there are printable images to use as aids with the instruction, printable forklift operator certificate and forklift operator licence, along with complete OSHA forklift standards.

**FM204 (Eng / CD Rom \$95.00)**

### **Forklift 2000 Package (Complete)**

Don't wait until you have been cited by OSHA. Forklift and powered industrial truck training is mandatory and must be specific to your workplace. We have the materials to help your organization accomplish this training. Purchase all three Forklift 2000 videos, plus a CD containing written training materials, pictures, tests, instructors guide, completion certificates and more for only 395.00! (A \$660.00 value. Save 245.00!)

2 Hours & 19 Minutes

**FM2000 (Eng or Spn / VHS \$395.00 / DVD \$500.00)**

### **Safety Of People & Equipment In Warehouse Operations**

This is the perfect video for any company whose workplace is in a warehouse environment. It emphasizes the coexistence of forklifts and personnel and that each side has safety responsibilities of their own. Every pedestrian must make sure it is safe before walking just as every forklift operator must make sure the way is clear before proceeding. 10 Minutes

**FM226 (Eng or Spn / VHS \$99.95 / DVD \$134.95)**

### **Electric Pallet Jack Safety**

This video explains the proper safety procedures for operating and maintaining powered pallet jacks. Operator safety rules, daily maintenance procedures, and general safety procedures are all covered. This program can also be used to train operators of manual pallet jacks as well. 12 Minutes

**FM233 (Eng or Spn / VHS \$125.00 / DVD \$160.00)**

### **Forkin' Around - What's Wrong With This Picture?**

This program is a fresh approach to training! Clips of videos are viewed & then the viewer is challenged to find "What's wrong with this picture?". The segments are then repeated as narrator explains the right and wrong ways to do "the job"! 12 Minutes

**FM236 (Eng / VHS \$99.95 / DVD \$134.95)**

### **Propane Safety**

Safety procedures, personal protection equipment, fire prevention when refueling and more are reviewed in this program. Handling, storing and refueling portable propane cylinders are examined. 10 Minutes

**FM279 (Eng or Spn / VHS \$99.95 / DVD \$134.95)**

### **Battery Charging Safety**

Safety precautions in handling batteries on forklifts and powered pallet jacks. Explains proper PPE use and general safety rules when engaging in electric battery charging operations. 10 Minutes

**FM228 (Eng or Spn / VHS \$99.95 / DVD \$134.95)**

### **Forklift Instructor Training**

What does a forklift trainer need to know? The 3 most important things are, first the engineering principles of a forklift. Second, the OSHA operating rules. And third what are the proper inspection and maintenance schedules required of the forklift driver? All of these questions are answered in this video program. 18 Minutes

**FM222 (Eng or Spn / VHS \$99.95 / DVD \$134.95)**

## Extreme Consequences - Ultimate High Impact

Serious industrial and construction accidents, injuries and deaths occur everyday in a wide variety of workplaces. We mainly hear about them on television or read about them in newspapers or the internet, but rarely do we see the horrifying results. If we did, there would probably be far fewer of them.

That's what this program is all about—to show what REALLY happens when safety rules or procedures are ignored or violated, or if the correct personal equipment or machine guarding isn't utilized.

Extreme Consequences is straightforward and to the point—there are no stylized re-enactments or special effects, just real, EXTREMELY GRAPHIC images of workplace injuries that demonstrate the importance of personal protective equipment and paying attention to your job and surroundings.

Topics and photographs include:

- Hand injuries
- Head injuries
- Puncture wounds
- Eye injuries
- Burns
- Chemical burns.

The vast majority of industrial injuries, even the most serious, need not happen and can be easily prevented. Increase safety awareness and help avoid these devastating injuries with this truly unforgettable high impact program.

**HX850 (10 Minutes, Eng, VHS or DVD \$89.95)**

### High Impact

This program shows graphic pictures of industrial injuries to illustrate the need for compliance with safety procedures. Viewers should be warned this video contains extremely graphic pictures. 12 Minutes  
**HX800 (Eng or Spn / VHS \$99.95 / DVD \$134.95)**

### Hand Injuries: The Gory Story

A true account of a maintenance person who had his arm crushed. Shows the various stages of the injury, from surgery to recovery. This worker had a 25 year accident free record, and yet his life was dramatically changed by this accident. 12 Minutes

**HX110 (Eng / VHS \$99.95 / DVD \$134.95)**

### What Happens When I Die? (Autopsy)

A very dramatic High Impact Video. Program discusses safety, unsafe acts, behavioral choices and death. Then the student is taken through a complete autopsy. 13 Minutes

**HX115 (Eng / VHS \$99.95 / DVD \$134.95)**

### High Impact II

Another program displaying photographs of seriously injured persons. Designed to stimulate safety thinking and actions. Includes arms, legs, hand, head and other injuries from workplace accidents. 12 Minutes  
**HX810 (Eng / VHS \$99.95 / DVD \$134.95)**

### Fire Prevention: The Gory Story

Dramatic live footage plus very graphic photos of burned persons. Stresses fire prevention in general. 15 Minutes  
**HX105 (Eng or Spn / VHS \$99.95 / DVD \$134.95)**

### My Precious Eyes: The Gory Story

This program discusses eye injury prevention, diseases of the eye and the various types of eye protection. A variety of eye traumas are shown as well as emergency treatment for different types of eye injuries. 13 Minutes  
**HX120 (Eng or Spn / VHS \$99.95 / DVD \$134.95)**

## **General Safe Work Practices**

Outlines basic job responsibilities such as safe work practices, housekeeping, safe lifting PPE and more. Meets the training requirements for "general hazards". More than just a Safety Orientation this tape can be used as a refresher for all personnel. 12 Minutes  
**CC440 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Trenching & Shoring Operations**

Meets training requirements for those persons assigned the job of trenching and shoring on a construction or retrofitting project. Explains the safety rules, requirements, work procedures and emergency procedures. 12 Minutes  
**CC661 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Scaffold Safety**

Training program for anyone working on or near scaffolding. Basic safety rules, operating procedures and how to use scaffolds safely without injury. Meets training requirements for scaffold safety. 9 Minutes  
**CC344 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Fall Protection**

Even a short fall can cause serious injury or even death. This informative program will provide information to help prevent tragic accidents. Included are sections on body harnesses, shock absorbing lanyards, swing effect, rope grabs, retractable lanyards & more. Don't take chances - train your employees now! 21 Minutes  
**CC484 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Crane Safety**

This video covers the safety requirements for all employees that work on or around cranes. Safety specific issues for the crane operator as well the workers who flag instructions to the operator and the workers who actually handle the load the crane is holding are all covered. This program will help reinforce the safety issues a crane operator must consider everyday on the job. 13 Minutes  
**CC352 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Material Handling**

Safe lifting techniques, retrieving items from difficult to get at locations and the importance of back injury prevention are all stressed in this informative video. A back injury can cause a lot of lost time for a worker, and can be expensive for the employer. Make sure your crew knows proper material handling procedures. 10 Minutes  
**CC336 (Eng / VHS \$160.00 / DVD \$160.00)**

## **Construction Forklift Procedures**

This video is designed to meet the mandatory training requirements for anyone operating a forklift on the job site. Some of the topics covered include, forklift engineering principle, safe operating rules and required operator maintenance. 16 Minutes  
**CC642 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Signs And Barricades**

The flow of big trucks onto and off the construction site is a very important aspect of this business. Many trucks making many visits stresses the importance of an efficient transportation corridor. This video contains an overview of the different types of signs and barricades that are commonly found on construction sites. 10 Minutes  
**CC345 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Permits**

Does your construction site require permits or hot work permits? If it does proper training should be required for your whole work crew. This video goes into depth on the importance of following the correct procedures to issue and use permits on the job site. Supervisor training is even more important because they will be held legally responsible if these rules are not enforced. 10 Minutes  
**CC455 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Powder Actuated Tools**

Adequate training is a requirement for these tools because they are dangerous! Explains equipment, safety procedures, types of loads, potential hazards and how to safely operate the equipment 10 Minutes  
**CC343 (Eng or Spn / VHS \$160.00 / DVD \$160.00)**

## **Backhoe / Loader Operations**

The general safe work practices that must be followed by any backhoe operator. Explain basic operator maintenance procedures as well. 9 Minutes  
**CC355 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

## **Dump Truck Safety**

Safety awareness program emphasizing job site safety and procedures for anyone operating dump trucks. Reminder on daily maintenance inspections loading unloading procedures. 10 Minutes  
**CC443 (Eng / VHS \$195.00 / DVD \$195.00)**

### **Employee Safety Orientation (Hospitality)**

A safety orientation is required by OSHA to train in the "general hazards" an employee may be exposed to. This program includes the basic requirements of reporting to work as well as an overview of electrical safety, safe lifting, fire protection and much more. Every employee that knows what is expected of them will be a much greater asset to your company! 12 Minutes

**HO622 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Reducing Unsafe Acts Of Employees (Hospitality)**

This program will help both management & employees to understand, avoid & eliminate the #1 cause of accidents & injuries in the workplace, the "Unsafe Acts" of employees. A must for your training library.

12 Minutes

**HO628 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Housekeeping Safety (Hospitality)**

Housekeeping in a hotel/motel environment is an important and responsible position. Housekeeping work requires the employee to make use of many different tools, equipment and a variety of chemicals. This video provides information on these topics and many more.

12 Minutes

**HO632 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Back Injury Prevention - Safe Lifting (Hospitality)**

Lifting safely is an important factor for all employees in the hospitality industry. This video addresses the many lifting hazards faced by employees everyday. Many different safe lifting techniques are explained and demonstrated from simple lifting to the more difficult tasks such as lifting items from under a table or off a rack. 10 Minutes

**HO617 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Maintenance Person Safety (Hospitality)**

This program meets all OSHA requirements for training maintenance personnel. The program covers general safety behavior, hazardous material handling, personal protective equipment, machine guarding, lockout/tagout, fire prevention & much more! 12 Minutes

**HO639 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Kitchen Safety (Hospitality)**

This video is a "must see" for any employees that work with knives, cooking utensils, slicers, cutters or any kitchen equipment. This program stresses the importance of proper handling & usage of all kitchen equipment. 12 Minutes

**HO609 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Fire Extinguisher Training & Use (Hospitality)**

Fire extinguishers are common to all workplace settings but most employees have only a vague knowledge of how to safely operate them. This program demonstrates step by step procedures for safely extinguishing a fire including the PASS system. This video helps raise employee awareness about the importance of proper fire extinguisher training & use. 10 Minutes

**HO633 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Knife Safety**

Safely using knives is one of the most important skills in a kitchen. But there are a lot of rules to proper knife handling. This program covers the many safety rules that should be required of every employee that uses knives. Proper personal protective equipment is discussed as well as information on how to care, store and maintain knives. 10 Minutes

**HO618 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Bomb Threat Procedures**

This video program trains all employees in what to do in the case of a bomb threat. Emergency action procedures, what to be looking for and what to do are all covered. Combine this with your emergency evacuation procedure as complimentary training and your employees will know what to do in case of a major incident or emergency! 12 Minutes

**HO672 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **High Rise Emergency Evacuation**

Do your employees know how to properly evacuate in case of emergency? Proper evacuation can be the difference between life and death in some instances. This video explains the essentials of evacuation, the precautions to take and what to do in case of an actual emergency. 12 Minutes

**HO602 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Basic Employee Safety Responsibilities**

This program is an excellent choice as initial safety orientation for new employees, as well as refresher training for existing employees. Don't put it off! Basic and job-specific safety training is mandatory for all employees. 5 Minutes

**BS2005-5 (Eng or Spn / VHS or DVD \$59.95)**

### **Manual Material Handling: Basic Safe Lifting**

Safe lifting - whether you lift a lot or a little the information contained in this program is a must for your training library. Proper safe lifting techniques are discussed and demonstrated. 5 Minutes

**BP411-5 (Eng or Spn / VHS or DVD \$59.95)**

### **Fire Extinguisher Training**

Fire extinguishers are common to all workplace settings but few employees know how to safely operate them.

This program demonstrates step by step procedures for safely extinguishing a fire using the PASS system. Fire prevention is serious business and should be taken seriously by everyone in the workplace. 5 Minutes

**BS726-5A (Eng or Spn / VHS or DVD \$59.95)**

### **Fire Prevention & Chemical Training**

Topics included are fire prevention techniques, flammable chemical safety and the proper way to store compressed gas cylinders. The Program is intended to assist employers to comply with OSHA training requirements. 5 Minutes

**BS726-5B (Eng or Spn / VHS or DVD \$59.95)**

### **Preventing Slips, Trips And Falls**

Slips and falls are the #1 one cause of employee injury. Slips and falls can be caused by a multitude of conditions. This program covers recognition of potential hazards & stresses the importance of proper maintenance, cleaning procedures and employee awareness. 5 Minutes

**BP422-5 (5 Min / Eng or Spn / VHS or DVD \$59.95)**

### **Personal Protective Equipment: The Right Choice**

Personal protective equipment (PPE) was designed to protect the employee against specific industrial hazards. This program reminds the employee of the importance of wearing the proper PPE for the job. 5 Minutes

**PE204-5 (Eng or Spn / VHS or DVD \$59.95)**

### **Hazard Communications / MSDS For The Workplace**

This video is for training all employees who work with chemicals or hazardous materials in an industrial environment. With a focus on Material Safety Data Sheets (MSDS), chemical labeling and the basic safety necessary for handling chemicals on the job. Hazard Communications- because it's not just your need to know, it's your right to know! 5 Minutes

**CH520-5 (Eng or Spn / VHS or DVD \$59.95)**

### **Forklifts & Powered Industrial Trucks – Equipment Overview & Characteristics**

This program consists of key sections extracted from our popular full length Forklift Safety Video. (FN211)

Topics include: General Operator Responsibilities, Classes of Equipment, Equipment Characteristics, and other general safe work practices. 5 Minutes

**FM2002-5A (Eng or Spn / VHS or DVD \$59.95)**

### **Forklifts & Powered Industrial Trucks – Engineering Principles**

This program also consists of key sections extracted from our popular full length Forklift Safety Video. (FN211)

Topics include: General Operator Responsibilities, The Stability Triangle, Center of Gravity, Equipment Capacities, Speeding and other general safe work practices. 5 Minutes

**FM2002-5B (Eng or Spn / VHS or DVD \$59.95)**

### **Control Of Hazardous Energy Sources (Lockout / Tagout)**

Lockout/Tagout is a basic principle of workplace safety that is too often ignored, and these procedures are mandated by OSHA! This program stresses the need for consistent procedures and explains the general principles of lockout/tagout. 5 Minutes

**MT721-5 (Eng or Spn / VHS or DVD \$59.95)**

### **Eye Protection**

This program features the hows and whys behind eye protection. There are sections on proper eye protection when machining, welding, using chemicals and much more. Includes a first aid section covering the proper treatments for different types of eye injuries. 5 Minutes

**PE212-5 (Eng or Spn / VHS \$99.95 / DVD \$129.95)**

### **Basic Employee Safety Responsibilities**

This program is an excellent choice as initial safety orientation for new employees, as well as refresher training for existing employees. Don't put it off! Basic and job-specific safety training is mandatory for all employees. 16 Minutes

**BS2005 (Eng or Spn / VHS or DVD \$89.95)**

### **Manual Material Handling: Basic Safe Lifting**

Safe lifting is very important, but it is only one step in the material handling process. The material must be then moved safely and put down properly. Material handling devices or other assistance may be required. This program covers the basic anatomy and physics of the human spine and back, as well as safe lifting and other material handling tips and techniques. 12 Minutes

**BP411 (Eng or Spn / VHS or DVD \$89.95)**

### **Fire Extinguisher Training & Fire Prevention**

Fire extinguishers are common to all workplace settings but most employees have only a vague idea of how to safely operate them. This program demonstrates step by step procedures for safely extinguishing a fire using the PASS system. Fire prevention is serious business and should be taken seriously by everyone in the workplace. 10 Minutes

**BS608 (Eng or Spn / VHS or DVD \$89.95)**

### **Control Of Hazardous Energy Sources (Lockout / Tagout)**

Lockout/Tagout is a basic principle of workplace safety that is too often ignored, and these procedures are mandated by OSHA! This program stresses the need for consistent procedures and explains the general principles of lockout/tagout. 10 Minutes

**MT721 (Eng or Spn / VHS or DVD \$89.95)**

### **Blood Borne Pathogens Training In The Workplace**

Avoid life threatening accidents, keep your employees well informed about bloodborne pathogens! This program is for all employees, and a must for your training library. 8 Minutes

**MF377 (Eng or Spn / VHS \$195.00 / DVD \$195.00)**

### **Forklift & Powered Industrial Truck Training**

OSHA has made it mandatory that all forklift and powered industrial truck operators be trained and certified on the specific equipment that they operate on the job. We take the mystery out of forklift training and cover a wide range of topics including: operator responsibilities, classes of equipment, equipment characteristics, engineering principles, similarities and differences to automobiles, capacities, attachments, pedestrian safety and more. 21 Minutes

**FM2002 (Eng or Spn / VHS or DVD \$89.95)**

### **Hazard Communications for the Workplace**

Over 32 million workers utilize up 650,000 chemical products in more than 3 million American workplaces. The goal of this program is to ensure that employers and employees understand chemical hazards and take precautions to reduce chemical exposures and injuries. Topics include: How to read MSDS Sheets, chemical facts and definitions, labeling requirements, quantity considerations and training requirements. 15 Minutes

**CH520 (Eng or Spn / VHS or DVD \$89.95)**

### **Preventing Slips, Trips and Falls**

Slips, trips and falls are the one main causes of employee injuries worldwide, and can be caused by a multitude of conditions. This program covers recognition of potential hazards & stresses the importance of proper maintenance, cleaning procedures and employee awareness. 11 Minutes

**BP422 (12 Min / Eng or Spn / VHS or DVD \$89.95)**

### **Accident Prevention for Employees**

Most "accidents" are usually work-related "incidents". The difference? An accident cannot be stopped from occurring whereas an incident can often be prevented. Almost all so-called "accidents" are preventable. 11 Minutes

**BS620 (Eng or Spn / VHS or DVD \$89.95)**

### **Basic Personal Protective Equipment**

Personal protective equipment (PPE) was designed to protect the employee against specific industrial hazards. This program reminds the employee of the importance of wearing the proper PPE for the job. 10 Minutes

**PE204 (Eng or Spn / VHS or DVD \$89.95)**

## ORDER RISK FREE!

THIS IS OUR GUARANTEE TO YOU...

We want you to be completely satisfied with your purchase from Safety Video's library of training programs. That is why if you receive a program from Safety Video that is either damaged or nonworking, you may return it (*postage paid*) to Safety Video within 10 days of receipt, letting us know in advance why you are returning it. Safety Video will then replace the damaged or nonworking program with another copy of the same program at **NO CHARGE** to you. You must call Safety Video prior to returning a program for any reason. You must have a return authorization number in order to receive a replacement or proper credit.

#### Return Policy:

All CD's, DVDs and Written materials are non-returnable. **ALL CD and DVD SALES ARE FINAL.** No exchange, return, refund, or credit will be accepted for any reason. Our DVDs are created using the latest DVD-R technology but some DVD players may not play our DVDs. Please verify your DVD player will read DVD-R media before purchase. All sales are final after ten (10) days.
